SISTER-CORPS DECISION TREE

CONTINUED?

If the idea makes it through these questions, the project idea should be further explored with the Sister-Corps Board.

Next– ask these questions regarding the IDEA

Does it serve a targeted population; recovery, or issues: disaster environmental, women and children, other underserved populations?

Would S-C need to mobilize teams to provide recovery relief to areas affected by disaster?

Does this provide ongoing support for an area previously identified and served by S-C?

Does this provide short term relief needs to local communities?
